

# Optics

With the help of our partners we can offer the following optics:

Size from 0.3mm to 350mm.

Coatings and materials from the deep UV to the IR.

Single optical components, component groups and optical arrays.

Metal Optics up to 800mm diameter.

Opto-mechanical and Opto-electrical systems.

Galvanometers and Scanners.

Beam shaping optics.

Optical spindles with prisms, polygons or chopper mirrors.
